Empire puts together an impressive combination of rib and muscle. His dam has been a great producer, every calf gets kept.

BEEF PROFITABILITY \$\$\$\$\$\$

Combined industry research indicates Limousin cattle, on average, have a \$45 per head feed cost advantage and a dressing advantage of 1-2%.

Further data indicates each increase in dressing percentage equates to an additional \$25 per head.

JDYE EVANDAR is a stout made, big-bodied, Polled, Red Lim-Flex bull. If you are looking for a bull to add muscle and stoutness to your herd, then he is your guy.

CATTLE SELL UNDER TERMS & CONDITIONS OF THE NORTH AMERICAN LIMOUSIN FOUNDATION

The information on bulls in this catalog: All Birth Weights are Adjusted, All Weaning Weights are Adjusted to 205 Days and Yearling Weights and Scrotal Measurements are Adjusted to 365 Days of Age. Bulls which were too young for Yearling Adjusted at catalog printing will be announced sale day. Listing EPDs for CW, REA, YG, MARB if available. All bulls have passed a breeding soundness exam. All EPD's are for Spring 2018.

All persons who attend the sale do so at their own risk. Neither KLBA or the consignors assume any liability, legal or otherwise, for accidents that may occur.

Potentially the best bull prospect we raised this past year. This big bodied, masculine bull is big topped, and thick ended; blended with elite structure and extra eye appeal is what we strive to replicate in our herd year in and year out. Don't miss out on an opportunity to purchase the best from the herd.

SCAS FINAL COUNTDOWN 155F

Interested in a bull maker, this Yannis' son certainly won't dissappoint. This heavy muscled, yet smooth made bull will inject power and keep the herd sound on their feet and legs.

Progressive cow-calf producers recognize the value of hybrid vigor:

20% more pounds of calf weaned per cow exposed; 1.3 years of additional cow longevity; 30% greater lifetime production; and increased fertility. The Limousin and Lim-Flex Ultra-Mate Cross breeding system makes cross breeding easy to produce calves that excel in any market and replacement females that have longevity and productivity.

Open Commercial Heifers

GE-EPDs North American Limousin Foundation

GE EPDs (yellow) Genomic, or DNA tests results are used to enhance predictability of current selection tools, to achieve more accuracy on EPDs for younger animals, and to characterize genetics for traits that are difficult or expensive to measure, such as: feed efficiency, carcass traits in breeding stock or maternal traits in bulls.

LIMOUSIN *#1 for Docility*

LIMOUSIN, after 25 years ranks #1 in docility scores. The LIMOUSIN breed was one of the first breeds in the continental United States to address docility and temperament of cattle over 25 years ago. NALF's breeders began to record docility scores for cattle and utilize a docility EPD in their culling process and mating decision in an effort to make quick improvement in their cattle. Since the initiation of the IGS BOLT EPD single-step cattle evaluation that allows breeders to compare EPD traits across various breeds, LIMOUSIN now ranks #1 for docility.

Limousin and Lim-Flex® (Limousin x Angus hybrid) deliver to your bottom line.

- | | |
|----------------------------------|----------------------------|
| ‡ Calving ease & calf vigor | ‡ Tested & proven docility |
| ‡ More pounds to sell at weaning | ‡ Cow & bull longevity |
| ‡ Feed efficiency | ‡ Carcass merit |

Use this key as an easy way to identify your purchases.

Lot Numbers are Coded with PB, LX, LF, or FB

PB = Purebred

Denotes animals that are 87% or higher Limousin.

LX = Percentage Limousin

Denotes animals that have not yet been bred up to purebred status.

LF = Lim-Flex

Denotes animals that are 25%-75% Limousin with the balance mainly Angus or Red Angus.

FB = Fullblood

Denotes 100% Limousin, animals which are of full French Ancestry.

2018 KLBA “Commercial Producer of the Year”

Sutton 5S Cattle Co.

The Sutton Family, Sutton 5S Cattle Co. of Grenola, Kansas were selected by the Kansas Limousin Breeders Association (KLBA) the recipient of the 2018 “Commercial Producer of the Year” award. The award was given to the family on September 22, 2018 at the KLBA Social near Fort Scott, Kansas.

Ed Sutton began buying Limousin bulls in the mid 1980’s, and he bought his first group of Limousin heifers in 1988 from GV Limousin at Garnett, Kansas. He has purchased Limousin bulls every year since then for his 470 black based cowherd which grazes on nearly 4,000 acres of ranch land near Grenola.

Ed’s wife, Coco, was a federal veterinarian with the USDA. She felt that the Limousin cattle did more to correct deficiencies in a cow than any other breed. She passed away in 2010 and since then, Ed and his daughter Robyn operate the ranch. They continue to handle the cattle in the traditional way. They like the muscle that Limousin provides and the profitability of the calves. The Suttons have continued their business and personal relationship with GV Limousin for over 30 years.
